STOCK, CROP AND FARM NOTES.

—W. H. McCarty is installing a large cannery at Licking, Nicholas county, which makes two large plants there.

—The export of lambs from Garrard county is still large and many have been sold at prices from 6 to 7 cents per pound.

—Evidence introduced at San Francisco in the Government's suit against the Sugar Trust indicated that competition was made impossible in the open market in 1906.

—Mr. Owen Laughlin, of Mt. Sterling, is one of the nearest heirs to an estate valued at \$75,000, left by a ranchman, Rockia Thornton, who died at LaBarge, Wyoming.

—C. C. McDonald, buyer for the S. & S. Co. of Cincinnati, shipped twelve carloads of the finest export cattle ever shipped from Montgomery county. They averaged 1,425 pounds and brought 7 1-2 and 7 3-4 cents.

—Beck Bros., of Sonora, Ky., bought the two year old stallion, Warren Rose, from W. R. Witlow, of Oakland, Ky., at a fancy price. They will show him with their string of horses at the fairs and expect him to win.

—Thunderstorms which prevailed in Nicholas county the past week and lightning accompanying has been playing havoc with live stock. A number of farmers report losses of horses and cattle from the lightning bolts. Some fine stock has been killed and the loss in that section has been several hundred dollars.

—The condition of the corn crop in Nicholas county continues poor, but some better as a result of continued rainfall. The corn crop as an average is far below the usual at this season of the year, owing to the unevenness and an insect which continues to play havoc with the crop in the Northern section of the county.

—Ten Progressive Republicans overthrew the regular Republicans in the Senate and joined with the Democrats in passing the La Follette woolen tariff revision bill as a substitute for the Democratic measure framed by the House of Representatives. The La Follette bill was adopted by a vote of 47 to 20, less than two hours after the Republican leaders had achieved what they believed was a victory when a compromise submitted by Senator Penrose was passed in the Committee of the Whole.

—James B. Haggin, of New York, owner of the Elmendorf Stock Farm, near Lexington, before starting on his return to New York had the stallion, Knight, sire of Anaconda 2:01 1/2, put to death as a relief from the infirmities of age. The old horse had lost all of his teeth, and as he could therefore take little nourishment, he had grown very thin and weak. He was twenty-five years old, and his fame rested almost entirely on having sired Anaconda. He was buried in a grave near the stallion barn at Elmendorf.

—The government Friday concluded its case against the Chicago Butter and Egg Board in the suit for an injunction to restrain the Quotation Committee of the board from "fixing" the price on butter and eggs. The last evidence was from the publishers of a trade bulletin, which quotes the prices made by the Butter and Egg Board. The directors of the board will begin their defense September 16. Meanwhile it is expected that the government attorneys will perfect plans for original prosecution of the board for violation of the Sherman anti-trust act through alleged restraint of trade.

Eyes Demand Repose.

Many people cannot remain unoccupied, and in their moments of leisure hasten to seize a book or a piece of embroidery. These are undoubtedly excellent means of distraction, but they are fatiguing for the eyes, upon which they impose continuous work without a break. One must know how to repose the eyes just as one considers it quite natural to rest the muscles after a fatiguing walk.

Its Only Purpose.

"O Willie, Willie," cried a teacher to a hopelessly dull pupil, "whatever do you think your head is for?" Willie, who evidently thought this another of the troublesome questions that teachers were always asking, pondered it deeply. "Please, miss," he replied at length, "to keep my collar on!"—Youth's Companion.

Common Drinking Cup to Be Banished.

The State Department of Education has ample authority to enforce its rule banning the common drinking cup in the public schools, in the opinion of Attorney-General Garnett, who says he is in perfect sympathy with the purpose of Superintendent of Public Instruction Barksdale Hamlett, although he holds that the anti-public drinking cup law does not apply to schools. In a statement given out Friday, sustaining both the opinion of Assistant Attorney-General M. M. Logan and the policy of Superintendent Hamlett, Attorney-General Garnett said:

"The Court of Appeals ten years ago, in the case of the Board of Education against the City of Covington in passing on the rights of governing authorities of schools, said: 'Our conclusion is that those in charge of such schools have the right to formulate such necessary rules as, in their judgment, will best promote the public good.'"

"The school partakes of the nature of a large family. The teacher is in loco parentis. Those in control of the schools have the right to prohibit the use of the common drinking cup in the schools, not under the act of 1912, but under the law which has been in force for many years. The Superintendent of Public Instruction has been so advised, and I am informed that it is his purpose to prohibit the use of the drinking cup in the common schools of the State, not under the act of 1912, but under the authority vested in the school authorities long before the act became a law."

\$100 Per Plate

was paid at a banquet to Henry Clay in New Orleans in 1842. Mighty costly for those with stomach trouble or indigestion. Today people everywhere use Dr. King's New Life Pills for these troubles as well as liver, kidney and bowel disorders. Easy, safe, sure. Only 25 cents at Oberdorfer's.

German Agriculture.

Agriculture supports nearly 19,000,000 of the inhabitants of the German empire.

Frightful Polar Winds

blow with terrific force at the far north and play havoc with the skin, causing rough, red or sore chapped hands and lips that need Bucklen's Arnica Salve to heal them. It makes the skin soft and smooth. Unrivaled for cold-sores, also burns, boils, ulcers, cuts, bruises and piles. Only 25 cents at Oberdorfer's.

Few Foreigners in British Army.

It is said there were only four foreigners in the British army last year.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

The Chocolate Plant.

The chocolate plant is a native of America. When first introduced into Europe chocolate was used only as a luxury, but it speedily advanced in popular esteem. It is now cultivated in countries far from its original home. The chocolate plant, as well as tea and coffee, has been cultivated from time immemorial. Chocolate as a beverage rapidly made its way in Europe, beginning in Spain, whither it was first brought.—Harper's Weekly.

Conditioned.

"How's your son getting on in college?" "Not at all. Every time there are two men on bases and it's his turn to bat, they bench him and give a substitute hitter a chance."—Detroit Free Press.

Never Repeat an Unkind Thing.

Never repeat unkind things. But if you hear something kind and pleasant and sweet, then make it your business to repeat it. It may sound superior to say you do not care whether people like you or not, you must speak your mind. That isn't superiority. It is supreme selfishness and surliness.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling in a bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

Fell Far Without Injury.

Simone Catnot, a five-year-old girl, fell from a fourth floor window of a building at Havre, France, the other day, without sustaining any injury save a few scratches. The child had been left alone in a locked room, and as she could not open the door, she broke a pane of glass with an umbrella and jumped out of the window. She was taken to a hospital, but after a careful examination was pronounced uninjured.

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is almost certain to be needed before the summer is over. Buy it now and be prepared for such an emergency. For sale by all dealers.

True Culture.

"Culture is knowledge gained not for its own sake, but for the sake of the refining of the mind and the sweetening of the world. To know by head rote and not by heart rote, all the rules of politeness would never make a man polite. Knowledge is for loving use."—"Literature and Life," by Rev. L. Maclean Watt.

Wise Warning.

Art cannot be taught; craftsmanship can be taught. It is the danger of all academies to confuse art with craftsmanship.—London Academy.

THE COST OF PAINTING

is lowest if you use S. W. P.

The greatest part of the cost in painting is the labor. The paint itself is only about one-third of the cost.

Poor paint makes the labor cost more, first because it takes longer to apply it; second because you have to repaint oftener.

Even the apparent saving in cost per gallon of the poor paint is eaten up by its low covering capacity; it takes more gallons of the poor paint to do the job.

Cost of paint and cost of labor are both lower with S. W. P. Have you gotten a full color card yet?
